SARAS TANNA

SOFTWARE DEVELOPER · BCA

Jam-Khambhaliya, Gujarat | +91 6353707382 | sarastanna1608@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

BCA graduate from Parul University with internship experience in software testing and automation. Comfortable with Python, and have worked on projects involving web scraping, Google Sheets automation and a cab booking system. Looking for an entry-level Software Developer role where I can learn and contribute to real-time projects.

EXPERIENCE

Software Testing - Intern | NAV Fund Services — Jun 2026 – Dec 2026

- Worked with the software testing team to test applications and report defects

Software Engineer - Intern | Gururo — Nov 2025 – Dec 2025

- Built automations to reduce repetitive manual tasks

PROJECTS

Book My Cab | Consultancy Project, FITCS — Jan 2025 – Dec 2025

- Developed modules for cab booking and ride management
- Worked on payment integration and the booking workflow
- Worked in a 5-member team on real client requirements

Google Sheets Data Automation — 2023

- Wrote a Python script to read and process data from Google Sheets automatically
- Used the Google Sheets API with OAuth 2.0 authentication

Tech: Python, gspread, Google Sheets API

Doctor Profile Web Scraper — 2023

- Scraped doctor names, specialisations, experience and fees from the Apollo 24/7 website
- Saved the scraped data in a structured format for analysis

Tech: Python, Selenium

CERTIFICATIONS

Linux · RDBMS PostgreSQL · C Programming · Java
